on center

SLB Sash Lift

Our beautifully made SLB 40 and SLB 45 "bail" type sash lift is delightful to the eye and a pleasure in the hand. The bases are machined perfectly flat and the screw holes are crisp, consistently spaced and accurately countersunk.

The lifts are solid brass, robust and very well polished. Each lift comes complete with 4 high quality slotted brass screws to securely affix the lift to the sash. Available in five finishes.
