

SASH LIFT

Materials: Forged brass

Dimensions: 4"w x 1 3/4"h x 1/2" deep

SLC 40 Sash Lift

Our SLC 40 recessed type sash lift is exceptionally well made out of forged brass. The edges of the faceplate are carefully chamfered for a neat appearance. The lift is secured to the sash with two discreetly located slotted wood screws in crisply countersunk holes for an uninterrupted surface finish. Available in five finishes.
