

## JAMB SOCKETS

**Material:  
Solid Brass**

### **JS 01 Jamb Sockets**

Jamb Sockets receive the end of our Spring Bolts and give window frames a finished appearance. Jamb sockets are made of solid brass. Generally the bolts are set to secure the lower sash in the closed/locked position and one or two other "open positions." The sockets are available in Unlacquered Brass and Oil Rubbed Bronze.

Spec as: JS 01
