

## CW STACKABLE SQUARE SASH WEIGHT

All CW series weights are  $1\frac{3}{4}$ " square in section and have  $\frac{3}{4}$ " long tongues.

CW series	Length
CW1	$1\frac{3}{8}$
CW3	$3\frac{15}{16}$
CW5	$6\frac{9}{16}$

### CW Stackable Square Sash Weight

SRS offers stackable cast iron sash weights in 1, 3 and 5 pound sizes. The stackable feature allows you to easily optimize the weights to match sash weight with minimal waste. The square cross section allows for the greatest weight in a given weight pocket (critical when used with heavy, wide or insulated units.)
